

The Aldelo Advantage

Cut Restaurant Losses

Aldelo Restaurant POS solution helps you prevent order mistakes, stop erroneous entries, improve inventory accountability, eliminate inaccurate time cards and much more.

Reduce Training Time

Aldelo Restaurant POS solution is simple to learn and easy to use. High staff turnover in the restaurant industry will no longer be of a concern. Our 100% touch enabled screen design will greatly simplify your staff training. In less than a few minutes, your wait staff will be able to start using our solution even without prior computer knowledge.

Simplify Daily Management

Aldelo Restaurant POS solution allows you to perform daily closing & reconciliation with the touch of a button. Detailed sales trends and statistics are at your fingertips without any effort on your part. Gone are the tedious closing procedures or trend analysis steps you had to endure in the past. Aldelo Restaurant POS solution provides all of your daily management needs with just a click of a button.

Enhance Staff Response

Aldelo Restaurant POS solution enables your staff to better service your customers with improved staff communication. Features such as multi-destination kitchen & bar routing, alphanumeric staff paging, manager alert paging, server table assignment paging, internal staff email & wireless handheld ordering enable everyone to work as a team.

Improve Customer Service

Aldelo Restaurant POS solution expands your customer service to the next level. Standard features such as gift card management, frequent diners program, house accounts, VIP discounts, reservations, waiting list, guest paging, Caller ID and much more will enable you to improve customer experience and retain guest loyalty.

Increase Your Profits

Aldelo Restaurant POS solution helps you streamline restaurant operations and improve customer service. The extensive features offered by Aldelo Systems family of products enable you to increase repeat business while growing your profits.

- Cut Restaurant Losses
- Reduce Training Time

Customer Testimonials

Aldelo Restaurant POS solution is deployed in over 20,000 installations worldwide. Our products & services have been well received by our restaurant users and are supported by a network of dedicated Aldelo Channel Partners.

"Overall we've simply found Aldelo's Solution to be affordable, easy to use, and fast. It provides the features and reports we need to make our business run smoothly."

"Westshore Pizza franchise has grown from a few locations to over 36 franchise stores within the past 5 years. We have been using Aldelo for Restaurants software since 1999, and we are very happy with the ease of use and the flexibility of the software.

Thanks to the low cost of Aldelo's restaurant solution, we are able to install this POS solution to our franchise stores at a fraction of the cost of other POS programs."

-Westshore Pizza Franchise

Mark Norris, Chef and Owner of Orange County's Best New Restaurant of 2005, White Horses in San Clemente, CA. says:

"Aldelo for Restaurants is a vital part in the smooth and accurate running of our restaurant. This software is completely intuitive to both our staff and management team.

We change our menu often and some of our dishes have many ingredients. The software adapts effectively and efficiently. At the end of every month I can sit down with the staff and look at our sales reports, server reports and customer reports to see exactly how we are doing, what is popular, who is doing a particularly good job, and how to offer better service to my customers.

We have used our logos and setup our screens exactly how we want them, the staff has the right level of access to perform their job only with the level of authority I am comfortable with.

I have been in the Restaurant business in Europe and America for 30 years as manager, chef, operator, designer, and consultant. I have designed and opened 45 restaurants for myself and others, and recommend this software to both small and large operations. It is simple, accurate, and secure."
