# Designed For Your Needs

## Table Service & Quick Service POS

Aldelo For Restaurants is great for Table Service & Quick Service establishments. Features such as specialized quick service order entry and flexible configuration options allow you to custom tailor to any needs.

Best of all, our solution gives you maximum flexibility by allowing you to mix and match table service and quick service POS in the same establishment.

## Enhanced Seating Management

Aldelo For Restaurants has extensive features to handle even the most demanding Table Service restaurants. You can manage tables, perform order splits, combines, apply gratuities, track guest counts & control every aspect of order entry process with ease.

## Integrated Pizza Builder

Aldelo For Restaurants has great support for pizza restaurants. Our pizza ordering screens are optimized for both speed and efficiency. Aldelo For Restaurants really makes it simple to apply pizza crust and pizza toppings with the touch of a button. Now you can serve your customers faster with our specialized pizza builders.

## Integrated Visual Map Display

Aldelo For Restaurants enables your delivery drivers to provide efficient delivery service with detailed turn by turn instructions and optimized route planning.

Our solution helps you deliver food faster to your customers without wrong turns or inefficient routes.

## Easy Access Management

Aldelo For Restaurants places all pertinent management and analysis functions within reach. Access to sales trends and statistics is available to you as simple as the touch of a button. Changing menu information is as easy as point, click and type. The extensive back office features offered by Aldelo For Restaurants enables you to better manage your operations and streamline your business.
